BINDU J

binduj2003j@gmail.com | +91 9019264330 | www.linkedin.com/in/bindujagannath | github.com/Bindu030103

PROFESSIONAL SUMMARY

Associate Full-Stack Developer with 1 year of hands-on experience building and shipping features on a multi-tenant SaaS platform using React, Redux, Spring Boot, and PostgreSQL. Comfortable owning work end-to-end — from PostgreSQL schema design and REST API development to responsive React UIs — with a strong focus on clean code, reusable components, and scalable design systems.

EDUCATION

Rajarajeswari College of Engineering — Bengaluru, India
Bachelor of Engineering in Electronics & Communication; CGPA: 8.15 — *2021 – 2025*

Vidyavahini PUC College — Bengaluru, India
PUC – PCMB; Percentage: 84% — *2018 – 2020*

Manjushree English School — Bengaluru, India
Class X – Karnataka State Board; Percentage: 83% — *2018*

PROFESSIONAL EXPERIENCE

ProBits Technology Pvt Ltd — Bengaluru, India
Associate Software Developer — *June 2025 - present*

- Work as a full-stack developer on Savoira, a multi-tenant SaaS platform for training organizations, using React, Redux, Spring Boot, and PostgreSQL.
- Contribute across the stack — database design, REST APIs, and React UIs — and own features end-to-end from requirements to production release.
- Collaborate with senior developers in an Agile team through sprint planning, code reviews, and pair programming to deliver production-ready features.

CERTIFICATIONS

Full Stack Development — KodNest — *July 2025*
Claude 101 — Anthropic — *March 2026*

PROJECTS

Savoira — React, Redux, Spring Boot, PostgreSQL, Recharts
Full-Stack Developer | ProBits Technology — *Dec 2025 - present*

- Multi-tenant SaaS platform for training organizations to manage trainers, client pipelines, and delivery analytics.
- Reports & Analytics (Full-Stack): Built 17 REST endpoints and 8 report sections with 7 Recharts components, powering 2 multi-tenant analytics dashboards.
- Database Design: Modeled 3 PostgreSQL tables with JSONB + GIN indexing and authored a reusable DateRangeResolver for all report filters.
- Global CSS & Design System: Architected the app-wide CSS — 19 stylesheets, 144 design tokens, 8 reusable UI primitives — adopted across 50+ components.

Timesheet Management Application — React, Redux, PostgreSQL, Node.js, Express.js
Full-Stack Developer | ProBits Technology — *June 2025 - Nov 2025*

- Developed a full-stack timesheet management application to track employee work hours and project tasks. Built a responsive frontend using React and Redux for efficient state management.
- Developed RESTful APIs using Node.js and Express.js for timesheet submission, approval, and reporting. Designed and implemented a PostgreSQL database schema to manage users, projects, and timesheet records.
- Implemented role-based access control for employees and managers.

Robot Joke Generator — HTML, CSS, JavaScript, API
Frontend Developer — *2024*

- Built an interactive web-based chatbot that fetches jokes dynamically using a public API for real-time responses.
- Designed a responsive, user-friendly interface with smooth client-side interactions.
- Optimized application performance to ensure fast load times and cross-device compatibility.

SKILLS & INTERESTS

Languages: Core Java, JavaScript

Web Technologies: HTML, CSS, React, Redux,Tailwind CSS

Backend: MySQL,REST APIs Design, Node.js ,PostgreSQL, OOP,Spring Boot 3, JPA / Hibernate, JSONB

Tools: Git, GitHub, VS Code, Figma (Basics), Hostinger, Claude, GitHub Copilot, Docker

Languages Spoken: English, Kannada, Telugu

Strengths: Problem-solving, Teamwork, Adaptability, Attention to Detail
